DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/9/11 has been entered.

Election/Restrictions

Applicant's election with traverse of claims 1-11 in the reply filed on 6/9/11 is acknowledged. The traversal is on the ground(s) that there is not a serious burden. This is not found persuasive because there different groups (claims 1-11 and claims 12-15) have separate classifications. Each invention has attained recognition in the art as a separate subject for inventive effort and also a separate field of search.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant has amended claim 1 to include the limitations of the toothbrush however, the preamble of the claim is not consistent with the body of the claim. The preamble is clearly

Art Unit: 3723

directed to "A device for securing a toothbrush", not a toothbrush and a device in combination.

The preamble needs to be changed to be consistent with the language of the claim. For example, the preamble could read "A combination toothbrush and device for securing said toothbrush".

Allowable Subject Matter

Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 16 is allowed.

The following is an examiner's statement of reasons for allowance: Claim 1 and 16 include the limitation of a toothbrush having a plate like bristle carrier and a retaining cross piece, wherein there is a space defined between the carrier and the cross piece. There is a tufting device comprising a retaining part having a flange that is configured to engage the space between the carrier and the cross piece. The closest prior art of Waguespack ('102) teaches a retaining device however fails to teach a toothbrush with a space to be engaged by the retaining device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
